CLOSE One rule for the manager

- ✓ Routine + safe + confident → automatic.
- ⊗ Needs human judgment → draft, a person sends.
- △ VIP / legal / new / low-confidence → straight to the team.

Every action is logged in </ai/replies> (outbound auto-replies) and the case audit trail — nothing the AI sends is invisible. Replies land in the **same email thread** (reply, not a new mail).

Timing: classify fast-path ~0.3–0.5s + reply generation ~8s → end-to-end ~10s per email.
Gotchas: include the 12–15 digit AWB (all bodies above have it) · duplicates are ignored (use a fresh email per run) · escalated cases stay in /human-review until resolved · if you want a rerun, change one word or the UTR number.
Verified: 1A/1B auto-send · 1C/1D ignore · 2A/2B draft_hold · 3A/3B human_review.
